I respectfully urge the FCC to reject the NAB's petition 04-160 and allow satellite radio to provide instant traffic and weather. Satellite Radio is what other commercial broadcasters should be; full of variety and choice, and quality unmatched by the NAB's membership. I make a choice to pay for these services each month, the FCC should not be dictated to by the NAB over those people who pay willingly for this service. I spend 1 and 45 minutes every day in the car. My satellite radio service is invaluable to make this time enjoyable, entertaining, and informative.
